03 Our Impact

04 Our Aim

05 Why Sponsor Us

06 Contact Us

NG Kenya, the premier Angular conference organized by Angular Kenya, is set to return in 2024 with a powerful lineup of speakers designed to elevate one's Angular development skills.

This year, the conference adopts the "Check Mate" theme, which highlights the event's commitment to equipping developers with the essential skills they need to build robust Angular applications.

Whether you're a seasoned web developer or a mobile app aficionado, NG Kenya caters to all levels of Angular expertise. We'll delve into core Angular concepts, from web fundamentals like the browser DOM API to advanced TypeScript techniques.

# 2024

## Our Aim in 2024

- Go beyond the basics with in-depth sessions on TypeScript, data structures, testing frameworks, software architecture, and advanced Angular concepts.
- Stay ahead of the curve with talks on integration libraries, including payment and mobile solutions.

# Our Attendees Will Gain

- In-depth knowledge – From core Angular concepts to crafting their first MVP, we'll provide a comprehensive foundation.
- Practical experience – Learn the latest integration libraries and best practices for building robust software solutions.
- Master the full stack – Explore design patterns, system design principles, and strategies for tackling complex enterprise challenges.

# NG KENYA 2023

The event featured various workshops, talks, and interactive sessions where attendees learned about the latest Angular trends and best practices. It was also an avenue to create more advocacy spaces for Angular in Kenya and provide opportunities for developers to showcase their skills and connect with potential employers

Expert Talks

Angular Kenya is a community of developers passionate about sharing knowledge about the Angular framework, experiences, best practices, and guidance while learning from others simultaneously.

# 2019

## Building an Angular Community

- Successfully hosted 2 major conferences and held weekly virtual workshops since 2019.
- Grown a strong community of over 500 members eager to learn and share Angular knowledge.

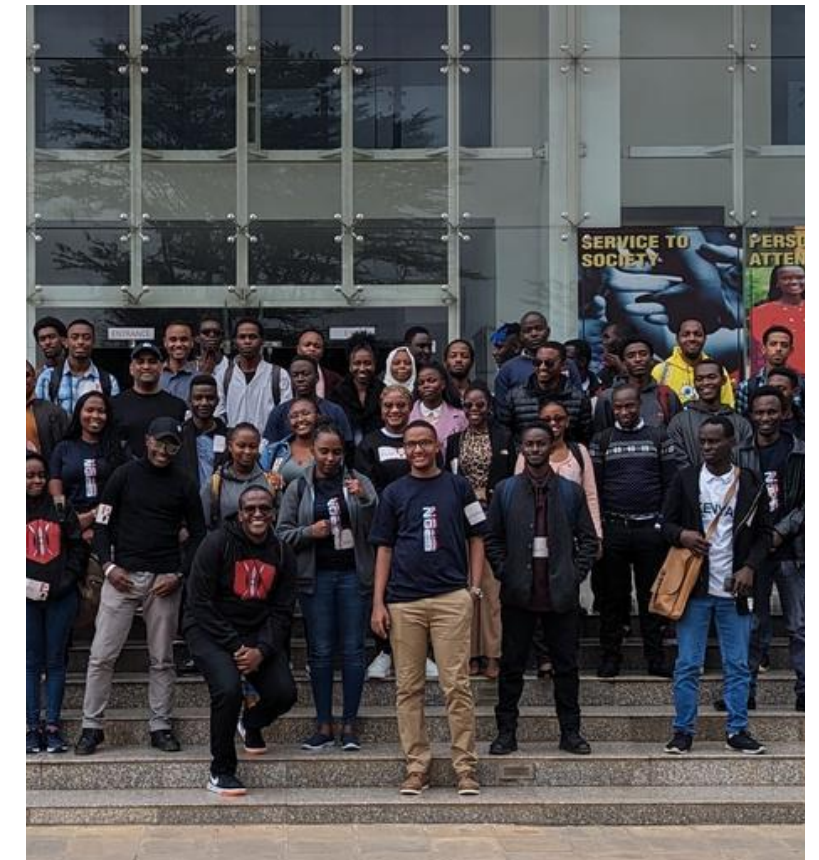

## Provide attendees with start-up essentials, for their next solution.

The conference seeks to equip one with the skills needed build on their next big idea. It does so by providing a platform on which attendees can master the core concepts of Angular, thereby creating a rock-solid foundation for their future projects.

### Networking

Connect with other developers, potential co-founders, and people in the Kenyan tech ecosystem.

### Community

Community of passionate developers who share similar interests & challenges, and feel supported in their development journey.

# Why Sponsor US

As a sponsor, your brand will benefit from extensive visibility and recognition during the event.

- Access to a large pool of experienced Angular developers.
- Targeted reach to decision-makers in enterprise development teams.
- Opportunity to connect with potential customers and partners.
